

# ROQ BAG

## BAGGING MACHINE

The ROQ Bag is a bagging machine that provides the perfect packaging for any garments you work with. It uses premade bags. The ROQ Bag bags automatically all type of garments and it is one of the fastest bagging machines in the market, with a production of 600 pieces per hour. You can choose to use bags with an adhesive strip or a bag with no glue and the ROQ Bag tapes it for you. It does not require a dedicated operator; its software is intuitive.

it will save you a huge amount of resources while outputting a **top-quality product.**

ROQ Bag		
length (mm / inch)	3350 / 132"
